

2026-2027 Required Notices

October 2026

Premium Assistance Under Medicaid and the Children’s Health Insurance Program (CHIP)

If you or your children are eligible for Medicaid or CHIP and you’re eligible for health coverage from your employer, your state may have a premium assistance program that can help pay for coverage, using funds from their Medicaid or CHIP programs. If you or your children aren’t eligible for Medicaid or CHIP, you won’t be eligible for these premium assistance programs but you may be able to buy individual insurance coverage through the Health Insurance Marketplace. For more information, visit www.healthcare.gov.

If you or your dependents are already enrolled in Medicaid or CHIP and you live in a State listed below, contact your State Medicaid or CHIP office to find out if premium assistance is available.

If you or your dependents are NOT currently enrolled in Medicaid or CHIP, and you think you or any of your dependents might be eligible for either of these programs, contact your State Medicaid or CHIP office or dial **1-877-KIDS NOW** or www.insurekidsnow.gov to find out how to apply. If you qualify, ask your state if it has a program that might help you pay the premiums for an employer-sponsored plan.

If you or your dependents are eligible for premium assistance under Medicaid or CHIP, as well as eligible under your employer plan, your employer must allow you to enroll in your employer plan if you aren’t already enrolled. This is called a “special enrollment” opportunity, and **you must request coverage within 60 days of being determined eligible for premium assistance**. If you have questions about enrolling in your employer plan, contact the Department of Labor at www.askebsa.dol.gov or call **1-866-444-EBSA (3272)**.

If you live in one of the following states, you may be eligible for assistance paying your employer health plan premiums. The following list of states is current as of July 31, 2026. Contact your State for more information on eligibility.

Important notice to employees from iCAPITAL NETWORK about creditable prescription drug coverage and Medicare

The purpose of this notice is to advise you that the prescription drug coverage listed below under the iCAPITAL NETWORK medical plan are expected to pay out, on average, at least as much as the standard Medicare prescription drug coverage will pay in 2027. This is known as “creditable coverage.”

Why this is important. If you or your covered dependent(s) are enrolled in any prescription drug coverage during 2027 listed in this notice and are or become covered by Medicare, you may decide to enroll in a Medicare prescription drug plan later and not be subject to a late enrollment penalty – as long as you had creditable coverage within 63 days of your Medicare prescription drug plan enrollment. You should keep this notice with your important records.

If you or your family members aren't currently covered by Medicare and won't become covered by Medicare in the next 12 months, this notice doesn't apply to you.

Please read the notice below carefully. It has information about prescription drug coverage with iCAPITAL NETWORK and prescription drug coverage available for people with Medicare. It also tells you where to find more information to help you make decisions about your prescription drug coverage.

Notice of creditable coverage

You may have heard about Medicare's prescription drug coverage (called Part D), and wondered how it would affect you. Prescription drug coverage is available to everyone with Medicare through Medicare prescription drug plans. All Medicare prescription drug plans provide at least a standard level of coverage set by Medicare. Some plans also offer more coverage for a higher monthly premium.

Individuals can enroll in a Medicare prescription drug plan when they first become eligible, and each year from October 15 through December 7. Individuals leaving employer/union coverage may be eligible for a Medicare Special Enrollment Period.

If you are covered by one of the iCAPITAL NETWORK prescription drug plans, you'll be interested to know that the prescription drug coverage under the plans is, on average, at least as good as standard Medicare prescription drug coverage for 2027. This is called creditable coverage. Coverage under these plans will help you avoid a late Part D enrollment penalty if you are or become eligible for Medicare and later decide to enroll in a Medicare prescription drug plan.

If you decide to enroll in a Medicare prescription drug plan and you are an active employee or family member of an active employee, you may also continue your employer coverage. In this case, the iCAPITAL NETWORK plan will continue to pay primary or secondary as it had before you enrolled in a Medicare prescription drug plan. If you waive or drop iCAPITAL NETWORK coverage, Medicare will be your only payer. You can re-enroll in the employer plan at annual enrollment or if you have a special enrollment or other qualifying event, or otherwise become newly eligible to enroll in the iCAPITAL NETWORK plan mid-year, assuming you remain eligible.

You should know that if you waive or leave coverage with iCAPITAL NETWORK and you go 63 days or longer without creditable prescription drug coverage (once your applicable Medicare enrollment period ends), your monthly Part D premium will go up at least 1% per month for every month that you did not have creditable coverage. For example, if you go 19 months without coverage, your Medicare prescription drug plan premium will always be at least 19% higher than what most other people pay.

You'll have to pay this higher premium as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to enroll in Part D.

You may receive this notice at other times in the future – such as before the next period you can enroll in Medicare prescription drug coverage, if this iCAPITAL NETWORK coverage changes, or upon your request.

For more information about your options under Medicare prescription drug coverage

More detailed information about Medicare plans that offer prescription drug coverage is in the Medicare & You handbook. Medicare participants will get a copy of the handbook in the mail every year from Medicare. You may also be contacted directly by Medicare prescription drug plans. Here's how to get more information about Medicare prescription drug plans:

- Visit [medicare.gov](https://www.medicare.gov) for personalized help.
- Call your State Health Insurance Assistance Program (see a copy of the Medicare & You handbook for the telephone number) or visit the program online at <https://www.shiptacenter.org/>.
- Call 1-800-MEDICARE (1-800-633-4227). TTY users should call 1-877-486-2048.

For people with limited income and resources, extra help paying for a Medicare prescription drug plan is available. Information about this extra help is available from the Social Security Administration (SSA). For more information about this extra help, visit SSA online at www.socialsecurity.gov or call 1-800-772-1213 (TTY 1-800-325-0778).

Remember: Keep this notice. If you enroll in a Medicare prescription drug plan after your applicable Medicare enrollment period ends, you may need to provide a copy of this notice when you join a Part D plan to show that you are not required to pay a higher Part D premium amount.

For more information about this notice or your prescription drug coverage, contact:

Notice of Special Enrollment Rights for Medical/Health plan coverage

As you know, if you have declined enrollment in iCAPITAL NETWORK's health plan for you or your dependents (including your spouse) because of other health insurance coverage, you or your dependents may be able to enroll in some coverages under this plans without waiting for the next open enrollment period, provided that you request enrollment within 30 days after your other coverage ends. In addition, if you have a new dependent as a result of marriage, birth, adoption or placement for adoption, you may be able to enroll yourself and your eligible dependents, provided that you request enrollment within 30 days after the marriage, birth, adoption or placement for adoption.

iCAPITAL NETWORK will also allow a special enrollment opportunity if you or your eligible dependents either:

- Lose Medicaid or Children's Health Insurance Program (CHIP) coverage because you are no longer eligible, or
- Become eligible for a state's premium assistance program under Medicaid or CHIP.

For these enrollment opportunities, you will have 60 days – instead of 30 – from the date of the Medicaid/CHIP eligibility change to request enrollment in the iCAPITAL NETWORK group health plan. Note that this new 60-day extension doesn't apply to enrollment opportunities other than due to the Medicaid/CHIP eligibility change.

Note: If your dependent becomes eligible for a special enrollment right, you may add the dependent to your current coverage or change to another health plan.

Women's Health and Cancer Rights Act notice

If you have had or are going to have a mastectomy, you may be entitled to certain benefits under the Women's Health and Cancer Rights Act of 1998 (WHCRA). For individuals receiving mastectomy-related benefits, coverage will be provided in a manner determined in consultation with the attending physician and the patient for:

- All stages of reconstruction of the breast on which the mastectomy was performed;
- Surgery and reconstruction of the other breast to produce a symmetrical appearance;
- Prostheses; and
- Treatment of physical complications of the mastectomy, including lymphedema.

These benefits will be provided subject to the same deductibles and coinsurance applicable to other medical and surgical benefits provided under this plan. If you would like more information on WHCRA benefits, call your plan administrator at (212) 994-7400.

Newborns' and Mothers' Health Protection Act notice

Group health plans and health insurance issuers generally may not, under Federal law, restrict benefits for any hospital length of stay in connection with childbirth for the mother or newborn child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, Federal law generally does not prohibit the mother's or newborn's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours as applicable). In any case, plans and issuers may not, under Federal law, require that a provider obtain authorization from the plan or the insurance issuer for prescribing a length of stay not in excess of 48 hours (or 96 hours). If you would like more information on maternity benefits, call your plan administrator at (212) 994-7400.

Marketplace/Exchange Notice

Health Insurance Marketplace Coverage Options and Your Health Coverage

Form Approved
OMB No. 1210-0149
(expires 12-31-2026)

PART A: General Information

Even if you are offered health coverage through your employment, you may have other coverage options through the Health Insurance Marketplace ("Marketplace"). To assist you as you evaluate options for you and your family, this notice provides some basic information about the Health Insurance Marketplace and health coverage offered through your employment.

What is the Health Insurance Marketplace?

The Marketplace is designed to help you find health insurance that meets your needs and fits your budget. The Marketplace offers "one-stop shopping" to find and compare private health insurance options in your geographic area.

Can I Save Money on my Health Insurance Premiums in the Marketplace?

You may qualify to save money and lower your monthly premium and other out-of-pocket costs, but only if your employer does not offer coverage, or offers coverage that is not considered affordable for you and doesn't meet certain minimum value standards (discussed below). The savings that you're eligible for depends on your household income. You may also be eligible for a tax credit that lowers your costs.

Does Employment-Based Health Coverage Affect Eligibility for Premium Savings through the Marketplace?

Yes. If you have an offer of health coverage from your employer that is considered affordable for you and meets certain minimum value standards, you will not be eligible for a tax credit, or advance payment of the tax credit, for your Marketplace coverage and may wish to enroll in your employment-based health plan. However, you may be eligible for a tax credit, and advance payments of the credit that lowers your monthly premium, or a reduction in certain cost-sharing, if your employer does not offer coverage to you at all or does not offer coverage that is considered affordable for you or meet minimum value standards. If your share of the premium cost of all plans offered to you through your employment is more than 10.22% for 2027¹ of your annual household income, or if the coverage through your employment does not meet the "minimum value" standard set by the Affordable Care Act, you may be eligible for a tax credit, and advance payment of the credit, if you do not enroll in the employment-based health coverage. For family members of the employee, coverage is considered affordable if the employee's cost of premiums for the lowest-cost plan that would cover all family members does not exceed 10.22% for 2027² of the employee's household income.

¹ Indexed annually; see <https://www.irs.gov/pub/irs-drop/rp-26-26.pdf> for 2027 & <https://www.irs.gov/pub/irs-drop/rp-25-25.pdf> for 2026.

² An employer-sponsored or other employment-based health plan meets the "minimum value standard" if the plan's share of the total allowed benefit costs covered by the plan is no less than 60 percent of such costs. For purposes of eligibility for the premium tax credit, to meet the "minimum value standard," the health plan must also provide substantial coverage of both inpatient hospital services and physician services.

Note: If you purchase a health plan through the Marketplace instead of accepting health coverage offered through your employment, then you may lose access to whatever the employer contributes to the employment-based coverage. Also, this employer contribution -as well as your employee contribution to employment-based coverage- is generally excluded from income for federal and state income tax purposes. Your payments for coverage through the Marketplace are made on an after-tax basis. In addition, note that if the health coverage offered through your employment does not meet the affordability or minimum value standards, but you accept that coverage anyway, you will not be eligible for a tax credit. You should consider all of these factors in determining whether to purchase a health plan through the Marketplace.

When Can I Enroll in Health Insurance Coverage through the Marketplace?

You can enroll in a Marketplace health insurance plan during the annual Marketplace Open Enrollment Period. Open Enrollment varies by state but generally starts November 1 and continues through at least December 15.

Outside the annual Open Enrollment Period, you can sign up for health insurance if you qualify for a Special Enrollment Period. In general, you qualify for a Special Enrollment Period if you've had certain qualifying life events, such as getting married, having a baby, adopting a child, or losing eligibility for other health coverage. Depending on your Special Enrollment Period type, you may have 60 days before or 60 days following the qualifying life event to enroll in a Marketplace plan.

What about Alternatives to Marketplace Health Insurance Coverage?

If you or your family are eligible for coverage in an employment-based health plan (such as an employer-sponsored health plan), you or your family may also be eligible for a Special Enrollment Period to enroll in that health plan in certain circumstances, including if you or your dependents were enrolled in Medicaid or CHIP coverage and lost that coverage. Generally, you have 60 days after the loss of Medicaid or CHIP coverage to enroll in an employment-based health plan. Confirm the deadline with your employer or your employment-based health plan.

Alternatively, you can enroll in Medicaid or CHIP coverage at any time by filling out an application through the Marketplace or applying directly through your state Medicaid agency. Visit <https://www.healthcare.gov/medicaid-chip/getting-medicaid-chip/> for more details.

How Can I Get More Information?

For more information about your coverage offered through your employment, please check your health plan's summary plan description or contact Jaclyn Rosamilia – SVP, Total Rewards - (212) 994-7400.

The Marketplace can help you evaluate your coverage options, including your eligibility for coverage through the Marketplace and its cost. Please visit [HealthCare.gov](https://www.healthcare.gov) for more information, including an online application for health insurance coverage and contact information for a Health Insurance Marketplace in your area.

PART B: Information About Health Coverage Offered by Your Employer

This section contains information about any health coverage offered by your employer. If you decide to complete an application for coverage in the Marketplace, you will be asked to provide this information. This information is numbered to correspond to the Marketplace application.

3. Employer name: iCapital		4. Employer Identification Number (EIN): 46-2479130	
5. Employer address: 60 E42nd Street 28th Floor		6. Employer phone number: 212-994-7400	
7. City New York	8. State: NY	9. Zip code: 10165	
10. Who can we contact about employee health coverage at this job? Jaclyn Rosamilia			
11. Phone number (if different from above) +1 203 930 7448		12. Email address: jaclyn.rosamilia@icapitalnetwork.com	

Here is some basic information about health coverage offered by this employer:

- As your employer, we offer a health plan to some employees. Eligible employees are Full-Time employees working 30 hours or more
- With respect to dependents, we do offer coverage. Eligible dependents are:
 - Legal spouse or qualified domestic partner
 - Child(ren) under age 26, regardless of student, dependency or marital status
 - Children who are past the age of 26 and are fully dependent on you for support due to a mental or physical disability and who are indicated as such on your federal tax return.

This coverage meets the minimum value standard, and the cost of this coverage to you is intended to be affordable, based on employee wages.

** Even if your employer intends your coverage to be affordable, you may still be eligible for a premium discount through the Marketplace. The Marketplace will use your household income, along with other factors, to determine whether you may be eligible for a premium discount. If, for example, your wages vary from week to week (perhaps you are an hourly employee or you work on a commission basis), if you are newly employed mid-year, or if you have other income losses, you may still qualify for a premium discount.

If you decide to shop for coverage in the Marketplace, [HealthCare.gov](#) will guide you through the process. Here's the employer information you'll enter when you visit [HealthCare.gov](#) to find out if you can get a tax credit to lower your monthly premiums.

iCAPITAL NETWORK HIPAA privacy notice

Please carefully review this notice. It describes how medical information about you may be used and disclosed and how you can get access to this information.

The Health Insurance Portability and Accountability Act of 1996 (HIPAA) imposes numerous requirements on the use and disclosure of individual health information by iCAPITAL NETWORK health plans. This information, known as protected health information, includes almost all individually identifiable health information held by a plan — whether received in writing, in an electronic medium, or as an oral communication. This notice describes the privacy practices of these plans: medical, dental, vision. The plans covered by this notice may share health information with each other to carry out treatment, payment, or health care operations. These plans are collectively referred to as the Plan in this notice, unless specified otherwise.

The Plan's duties with respect to health information about you

The Plan is required by law to maintain the privacy of your health information and to provide you with this notice of the Plan's legal duties and privacy practices with respect to your health information. If you participate in an insured plan option, you will receive a notice directly from the Insurer. It's important to note that these rules apply to the Plan, not iCAPITAL NETWORK as an employer — that's the way the HIPAA rules work. Different policies may apply to other iCAPITAL NETWORK programs or to data unrelated to the Plan.

How the Plan may use or disclose your health information

The privacy rules generally allow the use and disclosure of your health information without your permission (known as an authorization) for purposes of health care treatment, payment activities, and health care operations. Here are some examples of what that might entail:

- **Treatment** includes providing, coordinating, or managing health care by one or more health care providers or doctors. Treatment can also include coordination or management of care between a provider and a third party, and consultation and referrals between providers. For example, the Plan may share your health information with physicians who are treating you.
- **Payment** includes activities by this Plan, other plans, or providers to obtain premiums, make coverage determinations, and provide reimbursement for health care. This can include determining eligibility, reviewing services for medical necessity or appropriateness, engaging in utilization management activities, claims management, and billing; as well as performing “behind the scenes” plan functions, such as risk adjustment, collection, or reinsurance. For example, the Plan may share information about your coverage or the expenses you have incurred with another health plan to coordinate payment of benefits.
- **Health care operations** include activities by this Plan (and, in limited circumstances, by other plans or providers), such as wellness and risk assessment programs, quality assessment and improvement activities, customer service, and internal grievance resolution. Health care operations also include evaluating vendors; engaging in credentialing, training, and accreditation activities; performing underwriting or premium rating; arranging for medical review and audit activities; and conducting business planning and development. For example, the Plan may use information about your claims to audit the third parties that approve payment for Plan benefits.

The amount of health information used, disclosed or requested will be limited and, when needed, restricted to the minimum necessary to accomplish the intended purposes, as defined under the HIPAA rules. If the Plan uses or discloses PHI for underwriting purposes, the Plan will not use or disclose PHI that is your genetic information for such purposes.

How the Plan may share your health information with iCAPITAL NETWORK

The Plan, or its health insurer or HMO, may disclose your health information without your written authorization to iCAPITAL NETWORK for plan administration purposes. iCAPITAL NETWORK may need your health information to administer benefits under the Plan. iCAPITAL NETWORK agrees not to use or disclose your health information other than as permitted or required by the Plan documents and by law. The iCapital Total Rewards and, in limited instances, the Corporate Finance Team are the only iCAPITAL NETWORK employees who will have access to your health information for plan administration functions.

Here’s how additional information may be shared between the Plan and iCAPITAL NETWORK, as allowed under the HIPAA rules:

- The Plan, or its insurer or HMO, may disclose “summary health information” to iCAPITAL NETWORK, if requested, for purposes of obtaining premium bids to provide coverage under the Plan or for modifying, amending, or terminating the Plan. Summary health information is information that summarizes participants’ claims information, from which names and other identifying information have been removed.
- The Plan, or its insurer or HMO, may disclose to iCAPITAL NETWORK information on whether an individual is participating in the Plan or has enrolled or disenrolled in an insurance option or HMO offered by the Plan.

In addition, you should know that iCAPITAL NETWORK cannot and will not use health information obtained from the Plan for any employment-related actions. However, health information collected by iCAPITAL NETWORK from other sources — for example, under the Family and Medical Leave Act, Americans with Disabilities Act, or workers’ compensation programs — is not protected under HIPAA (although this type of information may be protected under other federal or state laws).

Other allowable uses or disclosures of your health information

In certain cases, your health information can be disclosed without authorization to a family member, close friend, or other person you identify who is involved in your care or payment for your care. Information about your location, general condition, or death may be provided to a similar person (or to a public or private entity authorized to assist in disaster relief efforts). You’ll generally be given the chance to agree or object to these disclosures (although exceptions may be made — for example, if you’re not present or if you’re incapacitated). In addition, your health information may be disclosed without authorization to your legal representative.

The Plan also is allowed to use or disclose your health information without your written authorization for the following activities:

Workers’ compensation	Disclosures to workers’ compensation or similar legal programs that provide benefits for work-related injuries or illness without regard to fault, as authorized by and necessary to comply with the laws
Necessary to prevent serious threat to health or safety	Disclosures made in the good-faith belief that releasing your health information is necessary to prevent or lessen a serious and imminent threat to public or personal health or safety, if made to someone reasonably able to prevent or lessen the threat (or to the target of the threat); includes disclosures to help law enforcement officials identify or apprehend an individual who has admitted participation in a violent crime that the Plan reasonably believes may have caused serious physical harm to a victim, or where it appears the individual has escaped from prison or from lawful custody
Public health activities	Disclosures authorized by law to persons who may be at risk of contracting or spreading a disease or condition; disclosures to public health authorities to prevent or control disease or report child abuse or neglect; and disclosures to the Food and Drug Administration to collect or report adverse events or product defects

Victims of abuse, neglect, or domestic violence	Disclosures to government authorities, including social services or protective services agencies authorized by law to receive reports of abuse, neglect, or domestic violence, as required by law or if you agree or the Plan believes that disclosure is necessary to prevent serious harm to you or potential victims (you'll be notified of the Plan's disclosure if informing you won't put you at further risk)
Judicial and administrative proceedings	Disclosures in response to a court or administrative order, subpoena, discovery request, or other lawful process (the Plan may be required to notify you of the request or receive satisfactory assurance from the party seeking your health information that efforts were made to notify you or to obtain a qualified protective order concerning the information)
Law enforcement purposes	Disclosures to law enforcement officials required by law or legal process, or to identify a suspect, fugitive, witness, or missing person; disclosures about a crime victim if you agree or if disclosure is necessary for immediate law enforcement activity; disclosures about a death that may have resulted from criminal conduct; and disclosures to provide evidence of criminal conduct on the Plan's premises
Decedents	Disclosures to a coroner or medical examiner to identify the deceased or determine cause of death; and to funeral directors to carry out their duties
Organ, eye, or tissue donation	Disclosures to organ procurement organizations or other entities to facilitate organ, eye, or tissue donation and transplantation after death
Research purposes	Disclosures subject to approval by institutional or private privacy review boards, subject to certain assurances and representations by researchers about the necessity of using your health information and the treatment of the information during a research project
Health oversight activities	Disclosures to health agencies for activities authorized by law (audits, inspections, investigations, or licensing actions) for oversight of the health care system, government benefits programs for which health information is relevant to beneficiary eligibility, and compliance with regulatory programs or civil rights laws
Specialized government functions	Disclosures about individuals who are Armed Forces personnel or foreign military personnel under appropriate military command; disclosures to authorized federal officials for national security or intelligence activities; and disclosures to correctional facilities or custodial law enforcement officials about inmates
HHS investigations	Disclosures of your health information to the Department of Health and Human Services to investigate or determine the Plan's compliance with the HIPAA privacy rule

Except as described in this notice, other uses and disclosures will be made only with your written authorization. For example, in most cases, the Plan will obtain your authorization before it communicates with you about products or programs if the Plan is being paid to make those communications. If we keep psychotherapy notes in our records, we will obtain your authorization in some cases before we release those records. The Plan will never sell your health information unless you have authorized us to do so. You may revoke your authorization as allowed under the HIPAA rules. However, you can't revoke your authorization with respect to disclosures the Plan has already made. You will be notified of any unauthorized access, use, or disclosure of your unsecured health information as required by law.

The Plan will notify you if it becomes aware that there has been a loss of your health information in a manner that could compromise the privacy of your health information.

How the plan will treat certain SUD treatment information

The Plan is not a federally assisted substance use disorder diagnosis, treatment or referral program that is covered by 42 CFR Part 2 (a "Part 2 Program") and does not create and does not typically maintain any records that are subject to 42 CFR Part 2. If the Plan does receive any Part 2 Program records pursuant to your written consent for claim administration and payment, the records will only be used and disclosed in accordance with HIPAA and your consent. In no event will the Plan use or disclose your Part 2 Program record, or testimony that describes the information contained in your Part 2 Program record, in any civil, criminal, administrative, or legislative proceedings against you, unless authorized by your written consent or a court order accompanied by a subpoena or other legal requirement compelling disclosure after you received notice and an opportunity to respond.

Your individual rights

You have the following rights with respect to your health information the Plan maintains. These rights are subject to certain limitations, as discussed below. This section of the notice describes how you may exercise each individual right. See the table at the end of this notice for information on how to submit requests.

Right to request restrictions on certain uses and disclosures of your health information and the Plan's right to refuse

You have the right to ask the Plan to restrict the use and disclosure of your health information for treatment, payment, or health care operations, except for uses or disclosures required by law. You have the right to ask the Plan to restrict the use and disclosure of your health information to family members, close friends, or other persons you identify as being involved in your care or payment for your care. You also have the right to ask the Plan to restrict use and disclosure of health information to notify those persons of your location, general condition, or death — or to coordinate those efforts with entities assisting in disaster relief efforts. If you want to exercise this right, your request to the Plan must be in writing.

The Plan is not required to agree to a requested restriction. If the Plan does agree, a restriction may later be terminated by your written request, by agreement between you and the Plan (including an oral agreement), or unilaterally by the Plan for health information created or received after you're notified that the Plan has removed the restrictions. The Plan may also disclose health information about you if you need emergency treatment, even if the Plan has agreed to a restriction.

An entity covered by these HIPAA rules (such as your health care provider) or its business associate must comply with your request that health information regarding a specific health care item or service not be disclosed to the Plan for purposes of payment or health care operations if you have paid out of pocket and in full for the item or service.

Right to receive confidential communications of your health information

If you think that disclosure of your health information by the usual means could endanger you in some way, the Plan will accommodate reasonable requests to receive communications of health information from the Plan by alternative means or at alternative locations.

If you want to exercise this right, your request to the Plan must be in writing and you must include a statement that disclosure of all or part of the information could endanger you.

Right to inspect and copy your health information

With certain exceptions, you have the right to inspect or obtain a copy of your health information in a “designated record set.” This may include medical and billing records maintained for a health care provider; enrollment, payment, claims adjudication, and case or medical management record systems maintained by a plan; or a group of records the Plan uses to make decisions about individuals. However, you do not have a right to inspect or obtain copies of psychotherapy notes or information compiled for civil, criminal, or administrative proceedings. The Plan may deny your right to access, although in certain circumstances, you may request a review of the denial.

If you want to exercise this right, your request to the Plan must be in writing. Within 30 days of receipt of your request (60 days if the health information is not accessible on site), the Plan will provide you with one of these responses:

- The access or copies you requested
- A written denial that explains why your request was denied and any rights you may have to have the denial reviewed or file a complaint
- A written statement that the time period for reviewing your request will be extended for no more than 30 more days, along with the reasons for the delay and the date by which the Plan expects to address your request

You may also request your health information be sent to another entity or person, so long as that request is clear, conspicuous and specific. The Plan may provide you with a summary or explanation of the information instead of access to or copies of your health information, if you agree in advance and pay any applicable fees. The Plan also may charge reasonable fees for copies or postage. If the Plan doesn't maintain the health information but knows where it is maintained, you will be informed where to direct your request.

If the Plan keeps your records in an electronic format, you may request an electronic copy of your health information in a form and format readily producible by the Plan. You may also request that such electronic health information be sent to another entity or person, so long as that request is clear, conspicuous, and specific. Any charge that is assessed to you for these copies must be reasonable and based on the Plan's cost.

Right to amend your health information that is inaccurate or incomplete

With certain exceptions, you have a right to request that the Plan amend your health information in a designated record set. The Plan may deny your request for a number of reasons. For example, your request may be denied if the health information is accurate and complete, was not created by the Plan (unless the person or entity that created the information is no longer available), is not part of the designated record set, or is not available for inspection (e.g., psychotherapy notes or information compiled for civil, criminal, or administrative proceedings).

If you want to exercise this right, your request to the Plan must be in writing, and you must include a statement to support the requested amendment. Within 60 days of receipt of your request, the Plan will take one of these actions:

- Make the amendment as requested
- Provide a written denial that explains why your request was denied and any rights you may have to disagree or file a complaint
- Provide a written statement that the time period for reviewing your request will be extended for no more than 30 more days, along with the reasons for the delay and the date by which the Plan expects to address your request

Right to receive an accounting of disclosures of your health information

You have the right to a list of certain disclosures of your health information the Plan has made. This is often referred to as an “accounting of disclosures.” You generally may receive this accounting if the disclosure is required by law, in connection with public health activities, or in similar situations listed in the table earlier in this notice, unless otherwise indicated below.

You may receive information on disclosures of your health information for up to six years before the date of your request. You do not have a right to receive an accounting of any disclosures made in any of these circumstances:

- For treatment, payment, or health care operations
- To you about your own health information
- Incidental to other permitted or required disclosures
- Where authorization was provided
- To family members or friends involved in your care (where disclosure is permitted without authorization)
- For national security or intelligence purposes or to correctional institutions or law enforcement officials in certain circumstances
- As part of a “limited data set” (health information that excludes certain identifying information)

In addition, your right to an accounting of disclosures to a health oversight agency or law enforcement official may be suspended at the request of the agency or official.

If you want to exercise this right, your request to the Plan must be in writing. Within 60 days of the request, the Plan will provide you with the list of disclosures or a written statement that the time period for providing this list will be extended for no more than 30 more days, along with the reasons for the delay and the date by which the Plan expects to address your request. You may make one request in any 12-month period at no cost to you, but the Plan may charge a fee for subsequent requests. You’ll be notified of the fee in advance and have the opportunity to change or revoke your request.

Right to obtain a paper copy of this notice from the Plan upon request

You have the right to obtain a paper copy of this privacy notice upon request. Even individuals who agreed to receive this notice electronically may request a paper copy at any time.

Changes to the information in this notice

The Plan must abide by the terms of the privacy notice currently in effect. This notice takes effect on January 1, 2026. However, the Plan reserves the right to change the terms of its privacy policies, as described in this notice, at any time and to make new provisions effective for all health information that the Plan maintains. This includes health information that was previously created or received, not just health information created or received after the policy is changed. If changes are made to the Plan's privacy policies described in this notice, you will be provided with a revised privacy notice.

Complaints

If you believe your privacy rights have been violated or your Plan has not followed its legal obligations under HIPAA, you may complain to the Plan and to the Secretary of Health and Human Services. You won't be retaliated against for filing a complaint. To file a complaint, contact Jaclyn Rosamilia, SVP Total Rewards, at jaclyn.rosamilia@icapital.com or (203) 930-7448.

Contact

For more information on the Plan's privacy policies or your rights under HIPAA, contact Jaclyn Rosamilia, SVP Total Rewards, at jaclyn.rosamilia@icapital.com or (203) 930-7448.

No Surprises Act notice

Your Rights and Protections Against Surprise Medical Bills

When you get emergency care or are treated by an out-of-network provider at an in-network hospital or ambulatory surgical center, you are protected from balance billing. In these cases, you shouldn't be charged more than your plan's copayments, coinsurance and/or deductible.

What is “balance billing” (sometimes called “surprise billing”)?

When you see a doctor or other health care provider, you may owe certain [out-of-pocket costs](#), like a [copayment](#), [coinsurance](#), or [deductible](#). You may have additional costs or have to pay the entire bill if you see a provider or visit a health care facility that isn't in your health plan's network.

“Out-of-network” means providers and facilities that haven't signed a contract with your health plan to provide services. Out-of-network providers may be allowed to bill you for the difference between what your plan pays and the full amount charged for a service. This is called “**balance billing**.” This amount is likely more than in-network costs for the same service and might not count toward your plan's deductible or annual out-of-pocket limit.

“Surprise billing” is an unexpected balance bill. This can happen when you can't control who is involved in your care—like when you have an emergency or when you schedule a visit at an in-network facility but are unexpectedly treated by an out-of-network provider. Surprise medical bills could cost thousands of dollars depending on the procedure or service.

You're protected from balance billing for:

[Emergency services](#)

If you have an emergency medical condition and get emergency services from an out-of-network provider or facility, the most they can bill you is your plan's in-network cost-sharing amount (such as copayments, coinsurance, and deductibles). You can't be balance billed for these emergency services. This includes services you may get after you're in stable condition, unless you give written consent and give up your protections not to be balance billed for these post-stabilization services.

[Certain services at an in-network hospital or ambulatory surgical center](#)

When you get services from an in-network hospital or ambulatory surgical center, certain providers there may be out-of-network. In these cases, the most those providers can bill you is your plan's in-network cost-sharing amount. This applies to emergency medicine, anesthesia, pathology, radiology, laboratory, neonatology, assistant surgeon, hospitalist, or intensivist services. These providers can't balance bill you and may not ask you to give up your protections not to be balance billed. If you get other types of services at these in-network facilities, out-of-network providers can't balance bill you, unless you give written consent and give up your protections.

You're never required to give up your protections from balance billing. You also aren't required to get out-of-network care. You can choose a provider or facility in your plan's network.

When balance billing isn't allowed, you also have these protections:

- You're only responsible for paying your share of the cost (like the copayments, coinsurance, and deductible that you would pay if the provider or facility was in-network). Your health plan will pay any additional costs to out-of-network providers and facilities directly.
- Generally, your health plan must:
 - Cover emergency services without requiring you to get approval for services in advance (also known as "prior authorization").
 - Cover emergency services by out-of-network providers.
 - Base what you owe the provider or facility (cost-sharing) on what it would pay an in network provider or facility and show that amount in your explanation of benefits.
 - Count any amount you pay for emergency services or out-of-network services toward your in-network deductible and out-of-pocket limit.

If you think you've been wrongly billed, contact U.S. Department of Health and Human Services. The federal phone number for information and complaints is: 1-800-985-3059. Visit [No Surprises Act | CMS](#) for more information about your rights under federal law.

Machine-Readable File

The [Transparency in Coverage Final Rules](#) require certain group health plans to disclose on a public website information regarding in-network provider rates and historical out-of-network allowed amounts and billed charges for covered items and services in two separate machine-readable files (MRFs). The MRFs for the benefit package options under the Institutional Capital Network Health & Welfare Benefits Plan are linked below:
